SUMMARY OF THE INVENTION

Rewrite the paragraph beginning at page 5, line 1, as follows:

In accordance with the invention, the foregoing object is achieved by the provision of a test stand which has a mounting frame which mounts a roller assembly. ~~The accomplished by a test stand with the features of claim 1. Accordingly, the test of the initially described type is configured and further developed such that the~~ roller assembly is supported for at least a slight movement with at least two degrees of freedom, and that to determine the force that is generated by the vehicle during its driving and braking movements, it is possible to measure the force that is active between the roller assembly and a predeterminable fixed point, and/or the displacement that occurs as a result of the driving and braking movements of the vehicle, and/or the angle of rotation between the roller assembly and a predeterminable fixed point.

Rewrite the paragraph beginning at page 20, line 14, as follows:

There exist various possibilities of improving and further developing the teaching of the present invention in an advantageous manner. To this end, one may refer ~~on the one hand to the claims dependent from claim 1, and on the other hand~~ to the following description of embodiments of the invention with reference to the drawing. In conjunction with the description of the preferred embodiments of the invention with reference to the drawing, also generally preferred improvements and further developments of the teaching are described. ~~In the drawing,~~
